React Projects [Set-3]

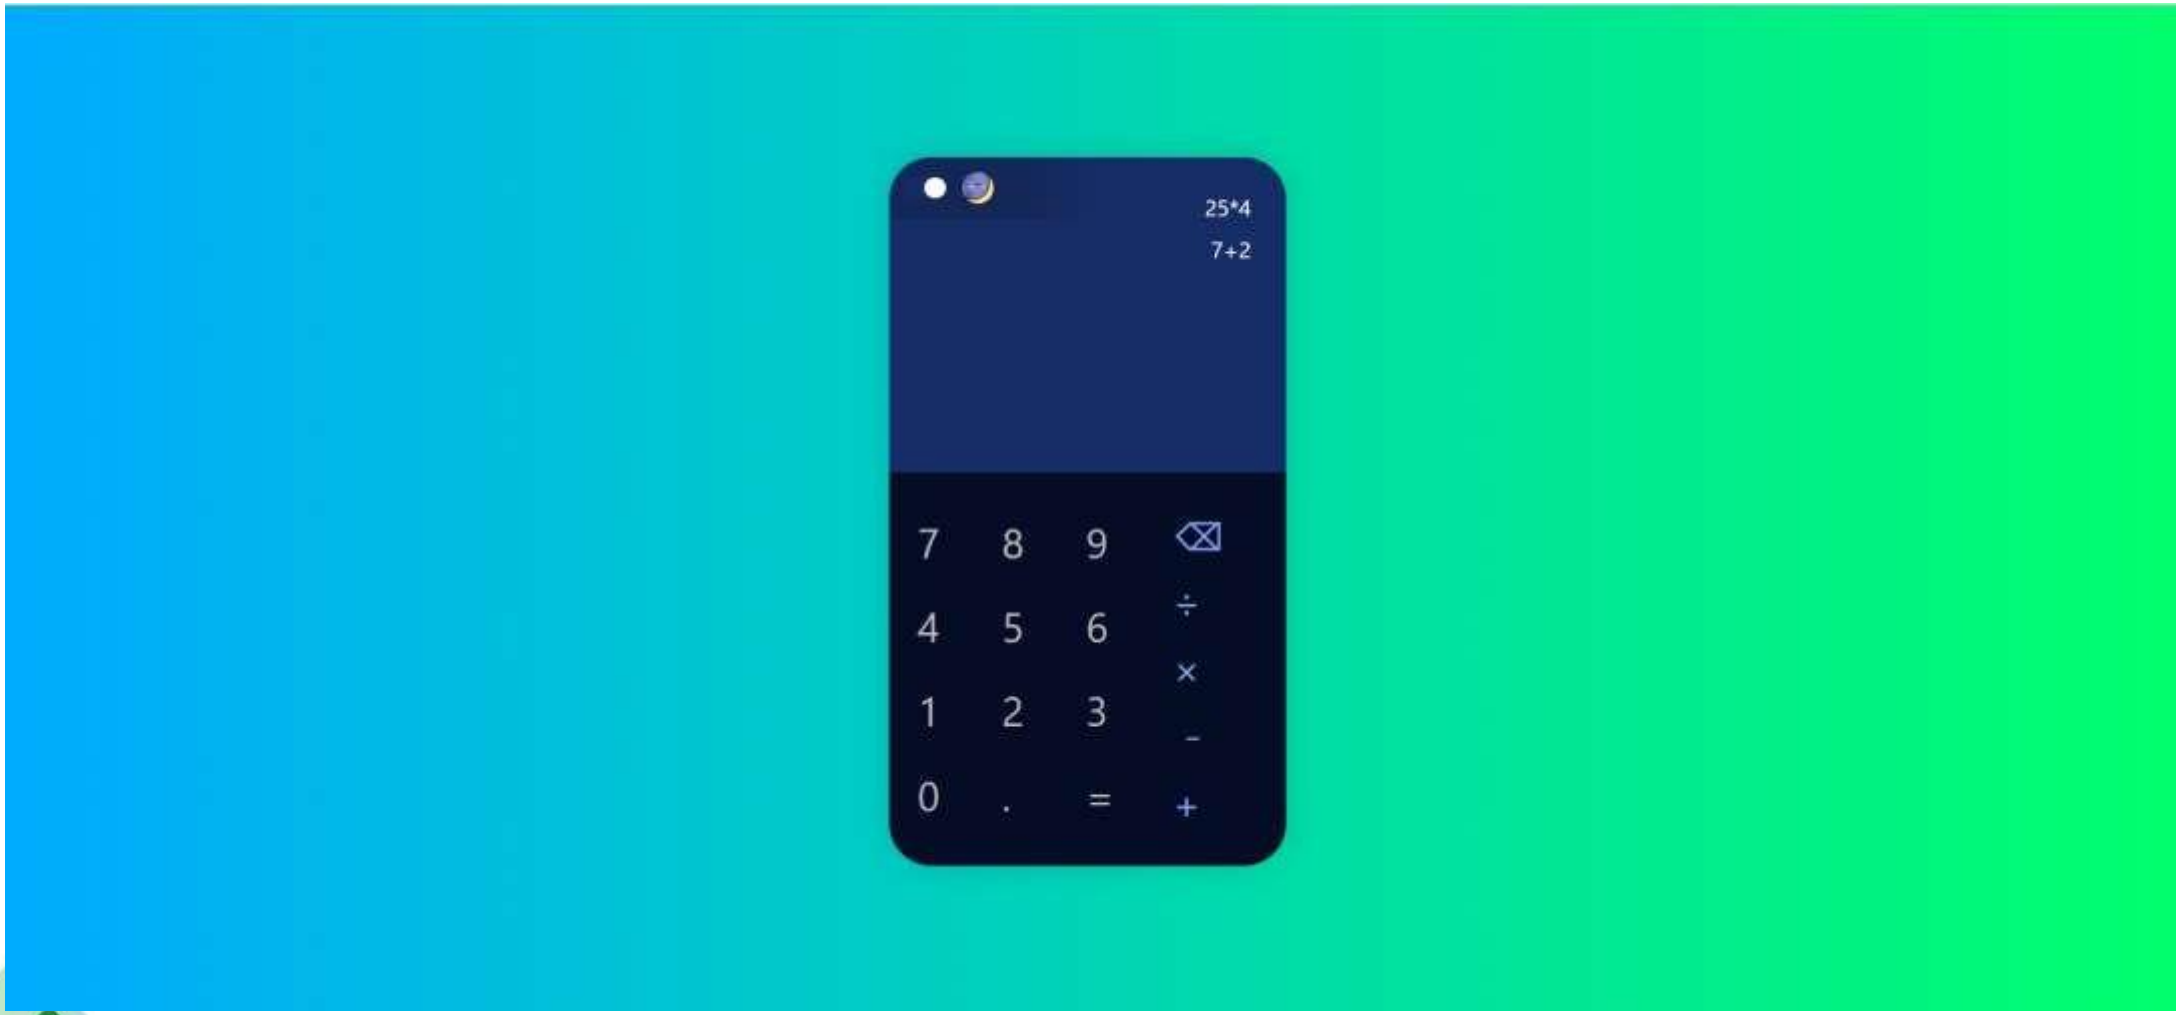
Task 1

Responsive Paragraph Word Counter

Hi All

Word Count: 2

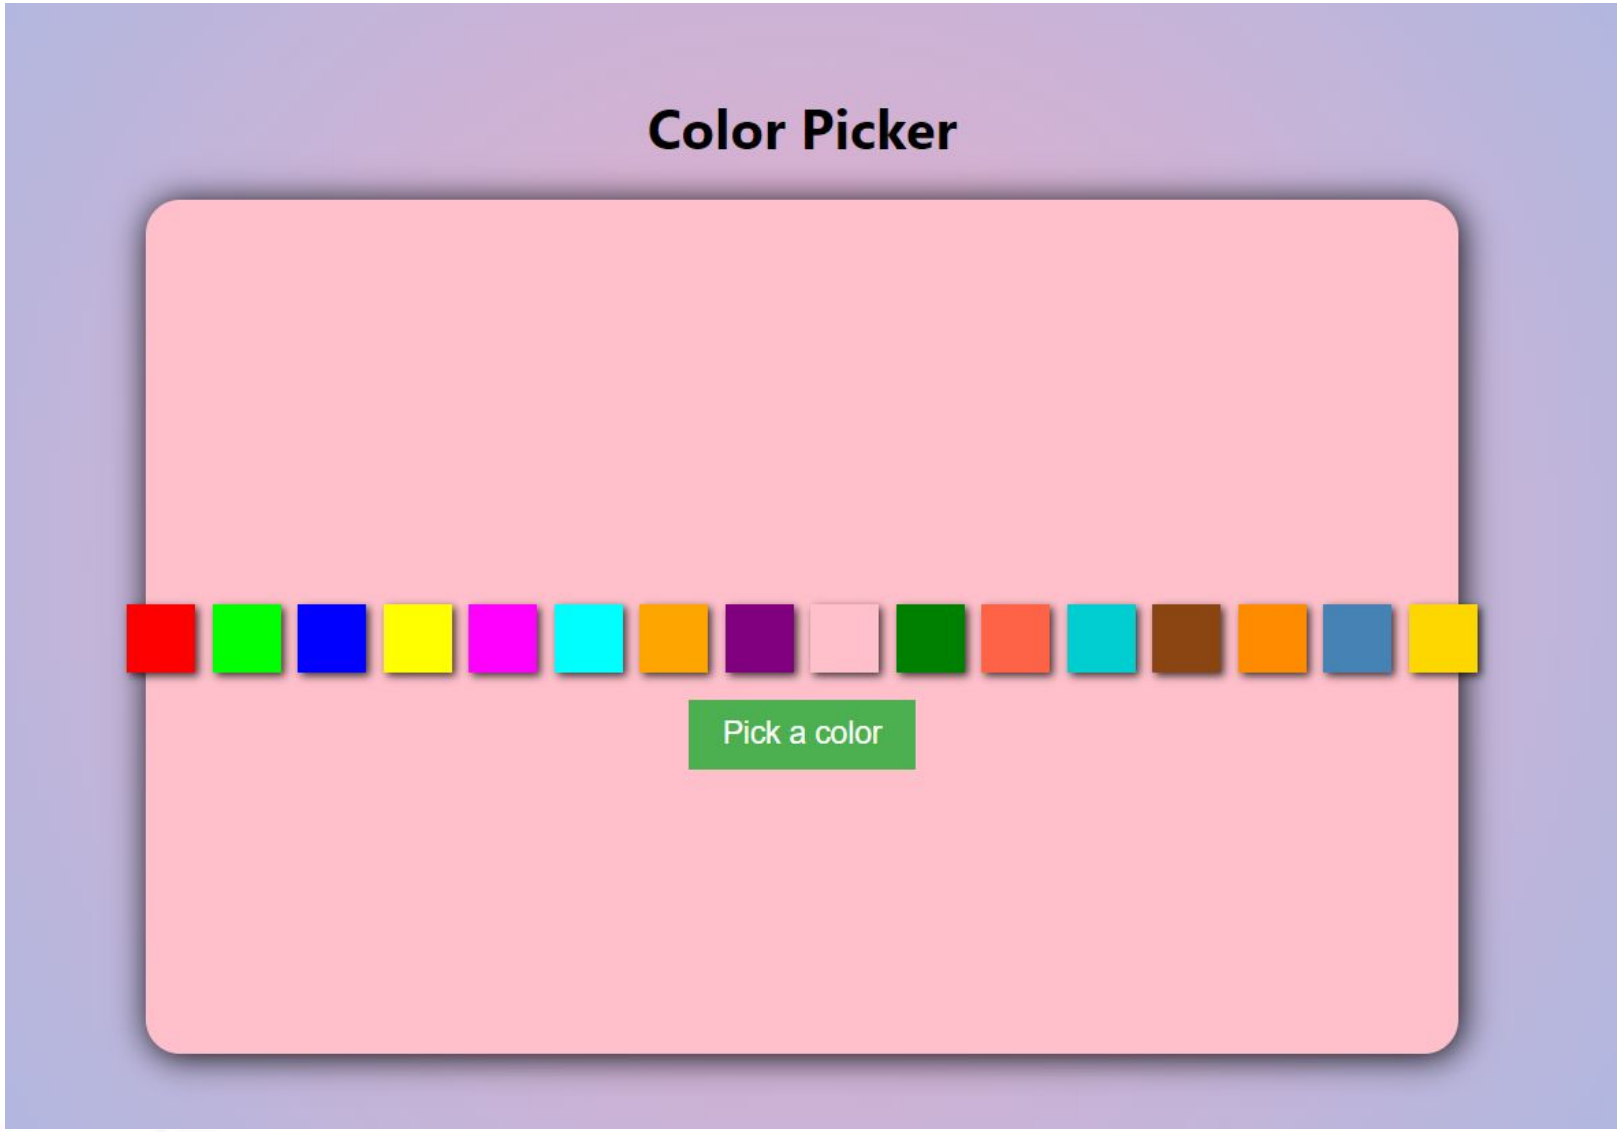
Task 2



Task 3

- Build a React component called Color Picker that allows a user to select a color from a list of colors. The component should have the following requirements:
- The component should take an array of colors as a prop.
- The component should display a button with a label "Pick a color".
- When the button is clicked, a list of colors should be displayed.
- Each color in the list should be displayed as a square with the color as the background color. When a color is clicked, the button should update with the selected color.
- When a color is selected, the list should hide

Task 3



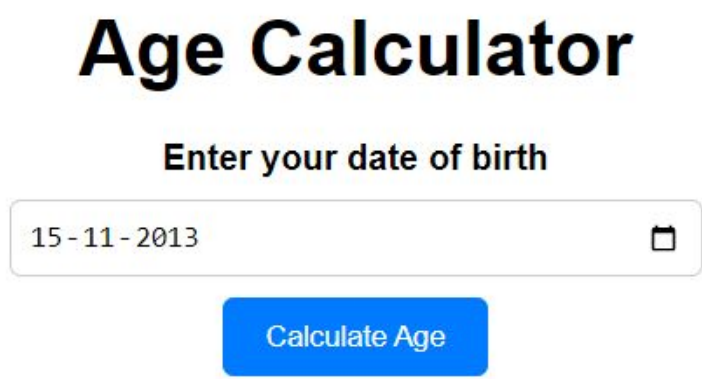
Task 4

- Fetch the records from https://dummyjson.com/users and display the content in a table in Client side.

Dummy data

Sno	Profile Pic	First Name	Last Name	Gender	E-mail	Username	Domain	IP	University
1		Terry	Medhurst	male	atuny0@sohu.com	atuny0	slashdot.org	117.29.86.254	Capitol University
2		Sheldon	Quigley	male	hbingley1@plala.or.jp	hbingley1	51.la	253.240.20.181	Stavropol State Technical University
3		Terrill	Hills	male	rshawe2@51.la	rshawe2	earthlink.net	205.226.160.3	University of Cagayan Valley
4		Miles	Cummerata	male	yraigatt3@nature.com	yraigatt3	homestead.com	243.20.78.113	Shenyang Pharmaceutical University

Task 5



Age Calculator
Enter your date of birth
15-11-2013
Calculate Age
Your are 9 years old

Task 6

- Portfolio
